

**Parameters for the use of VBS slots (version7-07/01/19)**

Time of VBS	Auto Exchange Minutes	Auto Exchange Time	Exchange Free Time Minutes	Exchange Free	Early Arrival Tolerance (minutes)	Late Arrival Tolerance (minutes)
	This is the amount of time allowed BEFORE a VBS starts that the system will "grab it back" if it does not have valid container details on it. in such circumstances the VBS booking will normally return to exchange free from the risk of a No Show charge (unless a haulier is classed as a shunter)		The amount of time BEFORE a booking starts that a haulier can return an unwanted VBS slot without the risk of earning a No Show charge. (see question 22)		The amount of time before or after a VBS booking time, when still valid to use the related booking to enter the Port. Please note No Extensions to the VBS tolerance can be offered by the CSC
